

# Peter Frampton, Out Of The Blue

Out of the Blue

Here I am on the road again  
Don't Know where I'm goin'  
Wonder when the road will end  
Guess there ain't no knowin'

Ooh darlin' this out of the blue  
I find I miss them little things you do  
Look what this world has driven me to  
Now I know should've stood by you

Wave goodbye to the things I loved  
You know I feel weak inside  
Now my home is the sky above  
Trying to survive

I tell ya Ooh baby this comes out of the blue  
How I miss them little things that you do  
Look what this world has driven me to  
Ooh, I know should've stood by you

I've heard it said, but I know myself  
You gotta carry on  
I don't look that far ahead  
Cause I just know where I'm coming from

Ooh baby this comes out of the blue  
How I miss the little things you do  
And look what the world has driven me to  
Lord shove knows should've stood by you

I've heard it said, but I know myself  
You gotta carry on  
I don't look that far ahead  
I just know where I'm coming from

I tell you Ooh baby this comes out of the blue  
I find I miss them little things that you do  
Look what this world has driven me to  
Lord above knows should've stood by you
