

# Peter Gabriel, In The Sun

written by Joseph Arthur

performed by Peter Gabriel on &quot;Diana, Princess of Wales - Tribute&quot;

I picture you in the sun  
wondering what went wrong  
and falling down on your knees  
asking for sympathy  
and being caught inbetween  
all you wish for and all you seem  
and trying to find anything  
you can feel that you can believe in

may gods love be with you  
always  
may gods love be with you  
always

i know i would apologise  
if i could see your eyes  
cos when you showed me myself, you know  
i became someone else  
but i was caught inbetween  
all you wish for and all you need  
i picture you fast asleep  
a nightmare comes  
you can't keep awake

may gods love be with you  
always  
may gods love be with you  
always  
may gods love be with you  
always  
may gods love be with you

cos if i find - if i find my own way  
how much will i find  
if i find - if i find my own way  
how much will i find  
if i find - if i find my own way  
how much will i find  
if i find - if i find my own way  
how much will i find  
how much will i find  
how much will i find  
you, yeh, you  
i'll find you, you, you - oo  
i'll find you, you, you - oo  
i'll find you, you, you - oo

oh i don't know anymore  
what it's for  
i'm not even sure  
if there is anyone  
who is in the sun  
will you help me to understand  
cos i've been caught inbetween  
all i wish for and all i seem  
or maybe you're not even sure  
what it's for  
anymore than me

may gods love be with you  
always

may gods love be with you  
may gods love be with you  
be with you ...
