

Peter Green, Just For You

If you are the one to tempt me
I am tempted
When it's my turn to speak out
I am empty

When love comes to me this way
I am blasted
Just to hear you say I love you
Is time passing

For you - just for you
For you - just for you

I could be awake all night
In confrontation
Just to hear you say
I'm your main station

There is no gift on earth
That I could give you
I find myself just longing
To be with you

For you - just for you
For you - just for you

I belong to no other
Just as long as you're around dear
No time can match the feeling
That I have found here

For you - just for you
