

Peter Green, One Woman Love

I was doomed from the start
When she captured my heart
Now a big wild lion couldn't tear me apart
From my one woman love
Yes, my one woman love
I can't get enough of my one woman love

One woman love
One woman love
Ev'rything I want
From my one woman love

Don't need diamonds and rings
And all that money can bring
'Cos when I'm up on my throne I feel just like a king
With my one woman love
Said my one woman love
Can't get enough of my one woman love

Need no women and song
I know it ain't wrong
Can get ev'rything and all the thrills that I want
With my one woman love
My one woman love
Woman love
I can't get enough of my one woman love

One woman love
One woman love
One woman love
One woman love
Can't get enough of my one woman love
