

Peter Kent, This Is My Symphony

This is my symphony

It's made for you and me

It says I love you forever and ever.

This is my symphony

...

Watch me how I take the stand

It's time to hear the band

And when I raise my hand

A thousand strings will play.

Hear the perfect harmony

Our love has set the key.

Love we can share

We know it's here and everywhere.

This is my symphony

...

This is my symphony

...

We don't need no concert hall

We two could show them all

Just any place at all

When music's in the air.

Come and sit right next to me

Real close the show's for free.

Love's here to stay

Hold me and hear the music play.

This is my symphony

...

This is my symphony

...
