

Peter Koppes, Horses In The Sand

And we'll ride horses in the sand
Yeah, we'll ride horses in the sand

Cool waves wash across a blood-stained lands
Silver precious loves slip through our hands
[0:32] ??? mothers linger in pain
Rose river cleaned from the evening rain

And we'll ride horses in the sand
We'll ride horses in the sand

Cocaine or dust clouds the welcome seed
Entres wave like you and me
Music plays on now from the past
We can only hope our song will last

But we'll ride horses in the sand
Yes we'll ride horses in the sand

Tell me the story of your dead ??? [2:57]
Out into the nighttime there we went
Home the people stay, celebrate the nations
And the people who survive equation

Riding horses in the sand (riding horses)
Riding horses in the sand (riding horses)
We'll ride horses in the sand (riding horses)
Yeah, we'll ride horses in the sand (riding horses in the sand)
