

Peter Koppes, Only Wait

I know I made you angry
So many times before
But when I feel you near me
Nothing makes me feel more

I've loved you for all these years
Don't want you to go
You don't know what love is
If you don't know what to do now

Sometimes love is like the tide
If we only wait this problem will subside
I know if we live through this
There's a lot of trouble we'll pass into bliss

There isn't often times I pray
Like when I get ???
Yet I'd rather not betray
The fight of the party's end

I know there's been so many
Promises and histories
Meant to break your ???
I'm free to know what love is
