

Peter Koppes, What's the Matter

Hey! What's the matter with you
Hey! What's the matter with you

You look like you could
Do what you would
It's only up to you
You look on the world
As a shiny new pearl
Shared by just a few
Let it seem
For you to gleam
Is all you have to do
All you have to do
All you have to do

You feel like a star
Sealed in a jar
With no way to escape
You see that a glow
Appears if bestowed
Without a forlorn drape
Now it's your turn
It's your life to burn
Kiss success in the nape
It never was a mistake
Never was a mistake

Simple things
Just seem to have you
Up in a balloon
Take this song
As good advice
Wrapped around a tune
I can't help it if I have
The faith in you I do
It's all you have to do
All you have to do
