

Peter Murphy, Just For Love

There is no place like
Just for Love
Just understand that
Just for Love
Come with me
Just for Love
It was you that I thought of

Just For Love

The stars are calling you
And you've never been so luminescent
The city calls for you
And you've never been so luminescent

Just For Love
Just For Love
Just For Love
Just For Love

Me the shaker you the sheikh now
With every move now
I'm the mover with the groove now
Just For Love
Just For Love

The stars spin for you
And you've never been so luminescent
The city spins for you
And you've never been so luminescent
Just For Love
Just For Love
Just For Love
