Peter Murphy, Let Me Love You

Love me now
Until the end of time
See me over your heart
In the night
Never let me go until you see
All the scenery and faking
Fall away from me

Oh let me love you in the morning light
Oh let me give you cover until it's alright
Oh let me feel you come into my arms

The saints have come over
They stayed all night long
Save your heart till the end of time... they say..
...Come over now, approach from every side
Give your heart till the end of time

Oh let me love you in the morning light
Oh let see you over until it's alright
Oh I fall so blue, coming to your arms
Oh let me see you over, until it's all...
