[Petey Pablo]

We got some questions of my home town

While I was gone working on this album

Racking my brain going through all types of problems

Cause the world would never get passed the first

single I dropped

The whole album was hot

Bottom to the top

And this time I'm giving ya'll a whole enchilada

Rappin hard I went back to the drawing board

Got me a sharper sword

Jumped on the right horse

Good Lord!

It ain't a game anymore

It's a rain forrest of wack shit and I don't want no

part to it

I done built me a fort I'm prepared for it

If the boat do sink, dawg, I won't on it

I was on the damn flight to New Orleans

And do a song with Souljah from Magnolia

Holla if you hear me
