

Petra, It's All About Who You Know

by Bob Hartman

1 John 5:20

You are tied-in and networked
You've got people to see
You have friends in high places
You've got places to be
You've got plenty of time to make your mark
You've been able to get things done
And all the white shirts will take your calls
You've really had quite a run

Who can you turn to
When your life is behind you?

(Chorus)

It's all about who you know
It's all about who you know
When you get to the end and you've got nothing to show
It's all about who you know
It's all about who you know

You have learned how to pull strings
And call in a favor or two
You have found some ways to spend your time
Instead of with "you-know-who";

There's only one name
You can call on without blame

(Chorus)

Some may wonder where, when if not how
There's no worry, if you know Him now

(Chorus)

Nothing we do here below
Is gonna save us 'cause
It's all about who you know
