

Petula Clark, Special people

Special people

That's the way I'll always think of you

Special people

All the very special things you do Like the day when we met,

Now, how could I forget?

I was low, I was down

And trying hard to clown it through

Suddenly, there was you

Seeing through to my heart

And that was only the start

Special people

Life has taken on a different cue

Special people

When I'm with you, I feel special too You are sweet, you are strong

And even when you're wrong,

You are right for me always

Love may not be always new

Still, we're gonna get through

And I'm gonna stay true to

Special people like you are sweet, you are strong

And even when you're wrong,

You are right for me always

Love may not be always new

Still, we're gonna get through

And I'm gonna stay true to

Special people like you You make me feel so special people

And you are special people
