

PFR, Falling

One more death-defying trick up your sleeve
Can you make it disappear?
Turn the skeptic into one who believes
Until I'm in the clear

(chorus)

Help me, I'm falling
Help me, I'm falling down
Help me, I'm falling
Help me, I'm falling now

All the vox humana echoing
Like the one who's heard out loud
Through the madness, can you still hear me?
Am I one of the crowd?

(bridge)

Everything is rising past me
Take my hand you've got to catch me
Can you make it all disappear?
