

# PFR, Fare Thee Well

Fare Thee Well

Look who's coming round the bend, it's you, friend  
Brothers in our mischief and the mystery  
Seven years and one we shared together  
Fared the storms and days of better weather  
And now it seems our ship has found a shore  
The flag still flies but she won't sail no more

Oh oh oh fare thee well  
Only time will tell what will become of  
All that we've begun, La la la life goes on  
We laughed and sang our song but songs come to an end  
So goodbye my friends  
Fare thee well

Some say go back and start anew  
Oooh, you can't return to times meant for the past  
Believe me only one thing stays the same  
Faith hope and love and love remains  
And love has placed us right here where we are  
Time has brought some changes but not a change of heart

Oh oh oh, fare thee well  
Someone ring the bell and gather in all  
One more time again, Ooo ooo ooo, here's to you  
One more little tune a way to reminisce  
A goodbye kiss  
Fare thee well

Oh oh oh, fare thee well  
Someone ring the bell and gather in all  
One more time again, Ooo ooo ooo, here's to you  
One more little tune a way to reminisce  
A goodbye kiss  
Fare thee well
