

PFR, Let Go

Daydreaming again
Trying to get my mind together
Seen what could be
Will it take forever
Let me have this moment
Let me take this minute for myself
A silence oh so sweet
Silence shared with someone else
Waiting to escape
I close my eyes
All the day's confusion
Just passes by
My only release
Is to call on You
A comforting conversation
A message getting through
This is my time
This is ours to share
This is my time
This is my time
