

# PFR, Pray For Rain

We don't have to say a word  
Sometimes it's better when we don't  
Apologies aren't always heard  
Sit beside me through the storm  
The cloud above will take another form  
(Chorus)  
It would be so it easy for you to walk away  
All I can tell you is  
I want you to stay  
Forget that man I was before  
My eyes are open to the sky  
Mine back lay flat against another shore  
I can't erase mistakes I've made  
And I can't stand to have them bring you pain  
(Chorus)  
The clouds are empty  
They roll away  
The sky is silent  
I am amazed  
That you are still sitting here  
When you could have left me  
To drift away  
(Chorus)
