

# PG Roxette, Wishing On The Same Christmas Star

There's a truth that's been forever  
It's so clear, it's in my heart  
It makes the voices from the street  
And that crazy christmas beat  
Feel so near  
It just feels so near

You and me we're linked together  
Like we were wishing on the same christmas star  
Oh I hope until the end  
You will always be my friend  
So close  
Like a whisper

I always knew this day eventually would come  
I always knew this place is right where we belong

Oh I know we can climb higher  
Yes, I know we've just begun  
Let us both just seize the day  
And let the beauty come our way  
To celebrate  
Christmas Day  
This Christmas Day
