

Phantom/Ghost, Phantoms And Ghosts

phantoms and ghosts
are here by my side
I remember those
coming near, passing by
I remember nights
that can be described as wild
and I remember you
drenched in light

phantoms and ghosts
are here by my side
the whip had got me stained
and the row tie to tie
this night will be hell
but tomorrow I'll be fine

phantoms and ghosts
waiting in lime

so let us be the host
I hope you've got the time
I've got phantoms and ghosts
waiting in lime

come now, gentlemen
your love is all I crave
you'll still be in the circus
when I'm laughing in my grave
