

# Phantom Planet, Break It Off

Take a piece and break it off  
Leave the crust; the filling's gone  
You take it and run  
Now I'm here in the instance of regret  
Without you there to save me  
Am I the one who's supposed to save you now?  
Well I don't remember how

Take a piece and break it off  
Leave the crust, but kill yourself  
You take it and run  
Now I'm here in the instance of regret  
Without you there to save me  
Am I the one who's supposed to save you now?  
Well I don't remember how.
