

Phantom Planet, Bust A Move

More and more as time goes by your thoughts slip away,
But everywhere I wanna go says I'm under age.
Well how was I to know
That everytime I twist and shout
I must listen to myself, well

(Chorus)

Come on and bust a move as we dance we loose our innocence.
Well come on, you're only good
Just because I fail at everything.
Come on and do what you want to do.
Just shake it loose,
And I'll be shaking too.

I wonder why as time goes by I just feel the same.
Stuck in place I'll wait so long just to feel so lame.
Well how was I to know that ever time I twist and shout
I must listen to myself well

(Chorus)

Come on bust a move
As we dance we loose our innocence
Come on you're only good
Just because I fail at everything
Come on and do what you want to do
Just shake it loose
You shake it loose
Come on come on
Come on come on
Yeah yeaaaah

Come on and bust a move
As we dance we loose our innocence
Come on your only good just because I fail at everything
Come on and do what you want to do
Just shake it loose
Shut up and dance and do what you want to do
Just shake it loose
You shake it loose
Don't you wanna
Come on come on
Come on come on
Yeaaaah
