Phantom Planet, In Our Darkest Hour

Oh yeah it started today in a cloud If I was the sun I would shout I've got so much shining left before I'm out Yeah it began with a spark then a flame grew into a fire and spread out again And I just woke up here surrounded by the whole thing

Well, we have got to get out of here In our darkest hour When we may not make it

I can't see a thing through the smoke and if I could breathe I'd try not to choke No where to run no where to hide no where to go Sometimes I get stuck yeah I get so upset I burn at the ends I learn to regret Just one toss of that faithful cigarette

Well, we have got to get out of here In our darkest hour I think the end is near I can feel it We have got to get out of here In our darkest hour When we may not make it
