

# Phantom Planet, Leave Me Alone

Hung over cast  
A rain cloud in the sky  
But I saw all bright  
As the sun in your eyes  
You said things would look up  
So I hung around  
But I found them still looking down  
No, this just isn't my day  
And to my dismay  
Now the words  
I can't say won't you please just leave me alone  
I felt a sorrow  
So deep in my heart  
If death's in the script, maybe I play the part  
You said things would look up  
So I hung around  
But I found them still looking down  
No, this just isn't my day  
And to my dismay  
Now the words  
I can't say won't you please just leave me alone  
Oh, won't you please just leave me alone  
Oh, this just isn't my day  
And to my dismay  
oh the words  
I can't say won't you please just leave me alone  
Oh, won't you please just leave me alone  
Oh, won't you please just leave me alone  
Oh, won't you please just leave me alone
