## Phantom Planet, Leave Yourself For Somebody E

All these winter days barely go by All the light has gone I don't know why Now I need a friend to do me right Or right on in

You need a helping hand to hold To lead you out to take control!

Come and visit Leave yourself for somebody else 'Cause I'm a prison Leave yourself for somebody else

When your heart beats under your skin This time don't be so afraid of losing it! Now I need a friend to cut me out And color me in

You need a helping hand to hold To lead you out to take control!

Come and visit
Leave yourself for somebody else
'Cause I'm a prison
Leave yourself for somebody else
You want out I can tell
Leave yourself for somebody else

You need a helping hand to hold To lead you out to take control!

Come and visit
Leave yourself for somebody else
'Cause I'm a prison
Leave yourself for somebody else
You want out I can tell
Leave yourself for somebody else
Well, we've all been there and it's hell
So, leave yourself for somebody else

So, leave yourself for somebody else Leave yourself for somebody else (x7)
