

Phantom Planet, Losing My Mind

Yesterday, when I woke up
I found myself in disrepair
I went to find myself was there
I ran out
I rub my eyes
And I don't know
My right from left
My high from low
And in the....
And I end up losimg my mind
Yeah, I end up losing my mind
So I go out to think
And I walked out a little sad
But soon enough I won't feel bad
I can feel it
When I have time to sit and stare
When my skull is strained and my brain is dead
I'm losing. . .
And I end up losing my mind
Yeah, I end up losing my mind. . .
