

Phantom Planet, Same To You

I don't mind it if you
Spend the day with him
Just as long as you
you spend the night with me

I've been wondering
You don't clean up your act
It got so bad that I just
Just have to laugh at it

And everytime you go away
Will you be back
Some other day
You blame it on
Some memory
Putting me in
You'll be back with me
Yeah

Why the hell did I
Go out and talk to you
Been in trouble since
Since, since, since '82

And everytime you go away
Will you be back
Some other day
You blame it on
Some memory
Putting me in
You'll be back with me

Look out
You gave me love that wasn't true
Look out
I'm gonna do the same to you
Look out
You gave me love that wasn't true
Look out
I'm gonna do the same to you

And everytime you go away
Will you be back
Some other day
You blame it on
Some memory
Putting me in
You'll be back with me

Look out
You gave me love that wasn't true
Look out
I'm gonna do the same to you
Look out
You gave me love that wasn't true
Look out
I'm gonna do the same to you

Look out
You gave me love that wasn't true
Look out
I'm gonna do the same to you
Look out
You gave me love that wasn't true

Look out
I'm gonna do the same to you

I'm gonna do the same to you
I'm gonna do the same to you
Gonna do the same to you
