

Phat Chance, Protection

Nobody knows my problems
But they come to me with all the answers
As if they had no problems of their own at all

When nobody's around I stand up tall
When everybody comes near I seem to fall
Can you help me, I can't get up at all
No I can't stand up at all

(Chorus)
You're my protection
You're my protection
Yeah, yeah

Well the seasons change and the seasons bring
Conflicts upon You and me
But we know that the suns comes back after all

Whenever this road takes it toll I know
I'll be ready cause You'll keep me from harm
You calm these storms after all

Repeat chorus

No matter what I've gotta remember

And I know I may not see those blue skies
And I may not see Your reflection in my life
But I'll always keep in mind and remember
That You'll always be my protection

Repeat chorus
