

# Phat Chance, Sunshine, Daylight

Can you feel it this world of darkness  
You know its all around  
It tries to break you and suffocate you  
You know it drags you down

Well we got a light  
We're going to shine it tonight  
So if you're with us raise your hands up singing  
Lord, I know I need your light inside of me  
For all the world to see

(Chorus)  
I need sunshine for rainy days  
Daylight for darker days  
Let your love shine down upon me  
Let your love shine down upon me  
Shine

It's just a flicker this little light of mine  
But the darkness never extinguishes  
The light that Jesus shines

Well we got a light  
We're going to shine it tonight  
So if you're with us raise your hands up singing  
Lord, I know I need your light inside of me  
For all the world to see

Repeat chorus (2x)
