

PHIL CAMPBELL AND THE BASTARD SONS, S

Knock Knock
I'm in your head
Bang Bang
I want you dead
Shout Shout
Time to sin
Hush Hush
Let the games begin

Lost communication with all reality
I trust no one when my own mind is biting back at me
Who are you talking to
Don't mean to scare you
Schizophrenia
(Schizophrenia)

Knock Knock
I'm back again
Bang Bang
It's your old friend
Shout Shout
Let me in
Hush Hush
I'm in your skin

Lost communication with all reality
I trust no one when my own mind is biting back at me
Who are you talking to
Don't mean to scare you
Schizophrenia
(Schizophrenia)

Lost communication with all reality
I trust no one when my own mind is biting back at me
Who are you talking to
Don't mean to scare you
Schizophrenia
(Schizophrenia)

I need those chemicals
I need those chemicals
Why don't you push me down
Six feet deep into the ground
I need those chemicals
I need those chemicals
Let them in I won't allow
I can hear them laughing now

Knock Knock
You want me gone
Bang Bang
You know it's wrong
Shout Shout
You know I'm right
Hush Hush
I steal your light
(But not tonight)

Lost communication with all reality
I trust no one when my own mind is biting back at me
Who are you talking to
Don't mean to scare you
Schizophrenia
(Schizophrenia)

Lost communication with all reality
I trust no one when my own mind is biting back at me
Who are you talking to
Don't mean to scare you
Schizophrenia
(Schizophrenia)

Schizophrenia
(Schizophrenia)
Get out of my head!
