

# Phil Collins, Big Noise

[Chorus:]

Just set your sight high, look  
'em right in the eye and take it  
And make a big big big noise.  
Don't ask why  
Just take it wise and making it  
Make that a big big big big noise.

You can feel it in the air  
Feel it everywhere  
There`s a spirit moving  
At just look, it`s all around you  
Just take a look around you people stars ?? to loose it  
Cos if you wanted you gotta go get it  
Just to listen up  
if there`s something that you need  
You better believe

[Repeat chorus...]

Better make your play  
Don't let her thing like right or wrong, get it  
Cos there`s nothing to it if you just if you reach out and do it, it'll be ok  
Just catch yourself a piece of the action  
Just to listen up  
if there`s something that you need  
You better believe

[Repeat Chorus...]

Cos if you wanted you gotta go get it  
Just to listen up  
if there`s something that you need  
You better believe  
[Repeat chorus to fade...]
