

# Phil Vassar, Like I Never Loved Before

I guess I gave myself to someone  
Maybe a time or two  
Well I tried, I went through the motions  
What was I supposed to do  
Well I spun my wheels, I wasted so much time  
And then with you I finally got it right

It's like I never loved before  
Like I never saw the sun  
Or felt the rain fall on my face  
It's like, like it's never ever been  
Can't imagine life without you anymore  
It feels just like I never loved before

I never talked about forever  
Now it's not long enough  
Well who's that guy looking in the mirror  
Cause it's not the man I was  
I only know I tremble when we kiss  
I'm making up for everything I missed

It's like I never loved before  
Like I never saw the sun  
Or felt the rain fall on my face  
It's like, like it's never ever been  
I can't imagine life without you anymore  
It feels just like I never loved before

I ran around in circles  
I never knew  
I was only getting ready for you

It's like, like I never loved before  
Like I never saw the sun  
Or felt the rain fall on my face  
It's like, like it's never ever been  
I can't imagine life without you anymore  
It feels just like I never loved before.
