

# Phil Vassar, Ultimate Love

Never seen the Mona Lisa  
Never walked across the moon  
Never been to Casa Blanca  
But I've been to Cancun  
I'll never make the Fortune 500  
On what I get paid

Please don't pity me,  
'Cause I've got everything I need

Life don't get no better  
I could live forever and never top this  
Oh, I'm in poll position  
Got a sweet suspicion there ain't nothin'  
I've missed  
Baby look at us  
Standing in the middle of this ultimate love

When I was seventeen I shook  
Joe Namath's hand  
Once I won karaoke singin' 'Piano Man'  
One time in Vegas I won me 700 bucks  
That's all real cool stuff but it don't  
Measure up

Life don't get no better  
I could live forever and never top this  
Oh, I'm in poll position  
Got a sweet suspicion there ain't nothin'  
I've missed  
Baby look at us  
Standing in the middle of this ultimate love

Well, I don't know too much, but I know this love  
Is bigger than the both of us

Life don't get no better  
I could live forever and never top this  
Oh, I'm in poll position  
Got a sweet suspicion that there ain't nothin'  
I've missed  
Baby look at us  
Standing in the middle of this ultimate love  
Love, love
