

Phil Wickham, How It Turned Out

Normal 0 false false false

MicrosoftInternetExplorer4

What are the chances of ever knowing You?

Oh God of creation

What would have happened if I have never followed You?

Oh lord of Salvation

But this is how we turned out

This is how we turned out

Everyday you greet me with the beauty of the dawn

My faithful companion

Your mercies in the morning your glories in the sun

My father in heaven

You know how I will turn out

You know how I will turn out

Chorus

You're the hope of my life

You're the God of my peace

You're the light to my soul

The very reason I breathe

I will walk in Your love

I will run in Your grace

I live to worship You

You make me turn

You are the reason for every breath I take

Strength in my weakness

You have forgiven every one of my mistakes

Meekness

This is how we turned out
You know how I will turn out

(Chorus x2)

I live to worship you
I live to worship you

You make me turn

Oh You make me turn out
