

# Phosphorescent, Ride On / Right On

Let's go for a ride, hey you turn me right on,  
Let's get on the bike, hey you turn me right on,  
Ain't nothing to hide and hey you turn me right on,  
The city at night, hey she turn me right on.

The kids in the park, hey they turn me right on,  
The city at dark, hey it turn me right on,  
Rose on the back, hey she turn me right on,  
Ain't nothing will last but hey she tell me, "Ride on".

Take your greedy hands, lay em on me,  
Take your greedy hands, honey, lay em on me.

It's not in the heart, but hey you turn me right on,  
We sit at the bar and hey you turn me right on,  
We lay in the dark, honey, hey you turn me right on,  
We wait for the part and hey you turn me right on.

Take your greedy hands, lay em on me,  
Take your greedy hands, honey, lay em on me.

Moving too fast, hey it turn me right on,  
Shifting to pass, hey it turn me right on,  
I know nothing can last, but hey you turn me right on,  
And Rose on the back, hey she tell me, "Ride on".
