

Phum Viphurit, Welcome Change

Eyes, they never lie.
I see you hiding your heart
from mine; eternal sunshine.

What if we erase
all of our mistakes.
No memory to retrace;
could we spark again?

I want to be nice to you.
I want to be kind to you.
I want to be good to you.
I want to be good.

You've got to be brave
and welcome change.
