

Pia Mia, We Should Be Together

We Should Be Together
We Should Be Together

You should be with me in the shade
With the breeze blowing free
Life is easy fight now
And I should be with you in bad
Sipping ____
No room for the bullshit for right now

We Should Be Together
We Should Be Together
We Should Be Together
We Should Be Together
We Should Be Together
We Should Be Together

More Money – more problems
Another day, another dollars
Every minute of every hour
You need a break from all that
Get away from all that
Take a moment
Take a shower
Take a shot of this
Do it and get into it
I ani't worried about the whole World
I just wanna be your world
And I'm really sayin' this!

You should be with me in the shade
With the breeze blowing free
Life is easy fight now
And I should be with you in bad
Sipping ____
No room for the bullshit for right now

We Should Be Together
We Should Be Together
We Should Be Together
We Should Be Together
We Should Be Together
We Should Be Together
