

Pierwszy, Unnoticed

Verse 1

I swear I got it, but I did really not
You see me like nobody, but I'm still alive
My Mom is proud, I'm holding my hands up
You've better bow because the lil' babe's gonna be mine
Don't know my better side, I don't know who you are
It's only waste of time, I hope you realise
It's not an easy way to know me but this thing I know
You'll never see my point at all if you don't trust me so, no

Chorus

Somebody told me you will never give up
Now they don't know me, then they'll praise when I die
See my heart before I leave this world
Lose it all, I am coming home, unknown
Like a one in the crowd, like unnoticed man

Verse 2

I hope you got it, it's my daily life
Every hour I am wondering just who am I
Don't question why I have been naughty cause we've talked twice
That's why my whole life is unnoticed, I still don't doubt
Despite my night prayers, they see my dark side
Sum up what they're saying before I'm under the spotlight
Belive me words or not, Look at me right now
Truth's always on top, I'm sure, It's my life style

Chorus

Somebody told me you will never give up
Now they don't know me, then they'll praise when I die
See my heart before I leave this world
Lose it all, I am coming home, unknown
Like a one in the crowd, like unnoticed man

Somebody told me, you will never give up
You will never give up, never give up
Somebody told me, you are one in the crowd
You are one in the world, like unnoticed man
