PIG, Whore

Come find, fuck, forget Take one for the neck Sinsation is sex Salvation lies wrecked So never forgive Toxico lives Never forget Your death rattle rolls Never for fun Upheaval's the one An eye for eye No one gets out alive

The swinging is caught
Between a stroll in the pork
The shit in my brains
And your gravy train
Save me the silt
Fuck me, I'm sick
Your symphony's broke
On seven veils and a rope

I am the poke in your eye I am the shit to the fly I am the red and the raw I am Sick City's whore Sick City's whore Sick City's whore Sick City's whore

I keep my contempt
In my favourite car
With infinite shame
Save me the blame
The hit that you spurn
The spit and the sperm
One meatball denies
One sweet child lies

Sweet hunger's extreme Your self esteem Excessive exclusion Your sweetest solution
