

# Pigface, Blood And Sand (Wtma Version)

blood and sand

what world filled with black and which point of collapse?

be gone you crystal gazers, be gone you phillistines

water melting, decayed and angry- collapse...

well i can't pry my fingers, from the burning metal sides

is this the only way to say a prayer?

are yours the only eyes that stare?

what world filled with black instead of sedatives...?

my nails will break my spine

blood and sand
