

Pilate, Baby I've Been Waiting

My days turn round, but they're spinning without you
So just lend me down and I'll walk away for good

But baby I've been waiting
For your love to come around
I'll see you on the morrow
When you lay your money down

But don't make me stand
Holding a flame that burns for you
I'll see you on the morrow when
You walk away for good

Don't ever let me say that "I'll love you anyways"
Darlin' shall I hold you when you were to walk away?

You're leaving now
But are you coming home for good
Do queens still lie
Would you save me if you could

Baby I've been waiting
For your love to come around
I'll see you on the morrow
When you lay your money down

But don't make me stand
Holding a flame that burns for you
I'll see you on the morrow when
You walk away for good

Am I dreaming now? Love you? I am you
Lord throw me down, and I'll walk away for good

But baby I've been waiting
For your love to come around
I'll see you on the morrow
When you lay your money down

Baby I've been waiting
For your love to come around
I'll see you on the morrow
When you lay your money down

Baby I've been waiting
For your love to come around
I'll see you on the morrow
When you lay your money down

And Jesus, I've been waiting
For your love to come around
Thrown on the backs of angels
And we'll fly around this town

But baby I've been waiting
And baby I've been waiting
But baby I've been waiting
And baby I've been waiting
