

Pilate, Shadow On The Take

When she talks I turn around
And it's alright
You're living deeply now
And you're alright

But just leave a light on
For the night is rollin' in
Oh, you wont catch me
Just come on down and
Ressurrect me
There's nothing left
To loose

And for Andy you forget
In mothers arms
And she lies outside of reach
Inside of harm

But just leave a light on
For the night is rollin' in
Oh, you wont catch me
Just come on down and
Ressurrect me
There's nothing left
To loose
To loose

Am I fallin' now?
I cannot sleep
The miles I got
Have left me weak
But please
It's a shadow on the take
A shadow on the take

When did we forget?
Smiles down by the waters edge
The same place we go now
It's done with love than years
My blood your tears

Just leave a light on
For the night is rollin' in
Oh, you wont catch me
Just come on down and
Ressurrect me
Just come on down and
Ressurrect me
Just come down and
Ressurrect me
Ressurrect me
