

# Pilfers, My Time Now

Old fogies living the past  
One thing I know that so ridiculous  
They don't want a single thing to change  
See how the punk dem ah act kinda strange

They're still missing events of their glory days  
They're threaten by my rebellious fire it's my soul

It's my time now  
Sing it children to the rising sun  
It's my time now  
Make a pledge before the sun goes down  
Are you ready?

Some seek to conform our individuality  
Try make us over like on a talk show  
Say this, say that act properly  
Your reality is not my reality

They're still missing events of their glory days  
They're threatened by my rebellious fires it's my soul

It's my time now  
Sing it children to the rising sun  
It's my time now  
Make a pledge before the sun goes down  
Are you ready?  
Secure your future  
Stand poised be ready to fight  
Secure your future  
Carve your name in lights

Give me my equal opportunity  
Give me my equal opportunity

It's my time now  
Sing it children to the rising sun  
It's my time now  
Make a pledge before the sun goes down
