

Pillar, Throwdown

Light It Up

Training day is over
It's been laid on the line
I'll give this all I've got
And I'll find my time to shine
I will settle for no less
Than the best I've got to give
Only the strong survive
When they try to take you down

[Pre-Chorus]

Toe to toe and pound for pound
It's time to step up it's time to throw it down

[Chorus]

There's nothing you say that could ever fade me
Serving up another lesson learned
Light it up and let the fire burn
There's nothing you say that could ever change me
Toe to toe and pound for pound
Step right up its time to throw down

The cage awaits this moment
The tension pushes through
The stage is set to showdown
I'm not turning my back on you
Face to face with the enemy
Giving in to you I refuse
Somebody's gotta win
And I don't know how to lose

[Pre-Chorus and Chorus]

[Chorus]

Light it up!

[Chorus 2x]
