Pinback, Bad Light

never forever what i think is true never forever what i hope to do never forever what i got from you never forever

and all that sun makes so much shine how this is done like so much science can't be explained through common sense takes a firm background in remembering

and it takes some math and there's so much more it's so hard to read in bad light it's so hard to read in bad light it's so hard to see in bad light it's so hard to see in bad light
