

# Pinch, Brighter Day

## BRIGHTER DAY

Long time me ah ask for de guidance  
Exercise in regard to de patience  
Keep grip only when it have substance  
Nah judge only by de appearance  
Many skill dun lost an found  
Eye to de sky keep ear to de ground  
Lord know dat road look long  
Weak lung but will it strong  
Make ah test to prove a point  
Heart go bump when dem go boink  
Make ah music to anoint  
Me nah feel it know it de joint  
Forward now ting seem sublime  
Learn some still learning fine  
Every ting come in Jah time  
Make stitch so saving nine

Lives me livin like me job me got more dan one  
Perfect practice in dis life cause de only one  
Set de standard hold de reigns not de only one  
Goals personal strive de be de one

Inna de place now  
An we got de right ah way  
On de case now  
An we nah give it away  
On de way now  
Tell ah friend dis DJ  
Nah gwon play around  
Him search tomorrow for a brighter day (x2)

In de place now

Light come out ah de darkness  
Order out ah chaos  
Honor out ah de slackness  
Karma make you pay up  
Change style chameleon  
Agenda detected  
Hide from us what you can  
Intensions reflected  
Doh put no sign up see it in de lineup  
From de bottom up how we ah link up  
So positive how we attract  
Admire it how dem react  
In we favor gwon tell ah neighbor  
Reap it from toil an labor  
Nah use gift commit crime  
Make stitch so saving nine
