

Pink Busters, Music Set You Free

Wake up in the morning
Monday brings you back again
Nothing has really happened
Until you turn the radio on
Music is my religion
Singing - here is my soul
Only thing you can do in this cruel world
Is to turn the music loud on

Music will set you free
Music will set you free
Music will set you free
Don't stop the music
don't stop no no no

Your body start to rush
Friday night wakes you up again
Something is really happening
when you turn the radio on
Music is my religion
Singing - here is my soul
Only thing you can do in this cruel world
Is to turn the music loud on

Music will set you free
Music will set you free
Music will set you free
Don't stop the music
don't stop no no no
