

Pink Cream 69, Anger

Ask me something I don't know
Help to make me whole
Give the one thing that I need
Cause I need to gain control

I don't know but I've been told
Something's on your mind
I won't criticize if you tell me the deal
But there's a monkey on your back
And it's sucking out your pride

Cause I feel your anger
I can sense your hate is working overdrive
Yeah I feel your anger
Can't you realize it's eating you alive?

Hit the breaks, yeah you're much too fast
The hatred takes it's toll
Maybe what you need is a smack th the head
But there's a monkey on your back
And it's sucking out your pride

Cause I feel your anger
I can sense your hate is working overdrive
Yeah I feel your anger
Can't you realize it's eating you alive?

I guess you're getting nowhere
I feel... I feel... I feel...
I guess you're getting nowhere
I feel... I feel... I feel...

Tell me what have you got
And what do you need?
Tell me what have you got
And what do you need?
What have you got
And what do you need?

Cause I feel your anger
I can sense your hate is working overdrive
Yeah I feel your anger
Can't you realize it's eating you alive?

Cause I feel your anger
I can sense your hate is working overdrive
Yeah i feel your anger

Tell me what have you got
And what do you need?
Tell me what have you got
And what do you need?
What do you need?
What do you need?
What do you need?
What do you need?
What do you need?
What do you need?
What do you need?
What do you need?
What do you need?
