

Pink Martini, Aspettami

Aspettami
Wait for me
I've been lost
Adrift at sea
In your dreams
Dream my way
Someday I'll find my heart
And come back to stay

Do you miss me
My darling
As I miss you
Take my hand
And pull me near
And never let me go again my dear

There was a time

I was safe in your arms
And the stars fell away like diamonds
Then we were young
And our love was younger still
Was it just an illusion

Aspettami
Wait for me
Close your eyes
And you will see
I'm coming home
Every sky in my heart will be blue
On the day I come back to you

I'm coming home
Every sky in my heart will be blue
On the day I come back to you
