

# Pissing Razors, No Way Out

Trapped battled within  
embrace the sin  
on the brink of death, this is a war  
fought in my mind  
locked in my lonely cell

there's no way out  
i've gone blind  
can i scream

your broken back is playing me  
living your life without a spine  
cant breathe, wont live  
without any voice

what's holding you back your killing me  
blood in my eyes is turning black
