

Pitchfork Project, I Live Your Dream

I won the fight
It seemed like eternity
Finally it stopped
I am standing in ruins
After all, I don't give in
There is no time
To see the victory

I lose but win
Here in my realm
Like heroes in films
I live your dream

The future was mine
You built it up
But you didn't care
So I paid the results
But after all
Grief is on my side
I've had to live
Your future plan

I lose but win
Here in my realm
Like heroes in films
I live your dream

I lose but win
Here in my realm
Like heroes in films
I live your dream
